Dear Executive Director Snow:

I urge you to ensure that CalFed creates and selects a "Smart Alternative" (a fourth alternative) based on conservation and restoration to provide ample and high quality water for California families, wildlife, farms, and businesses into the 21st century. The "Smart Alternative" would:

Ensure effective conservation programs and economic incentives to use our water more efficiently;

Maximize water efficiency before even considering costly new dams, reservoirs and canals;

Restore and protect our watersheds and groundwater basins for high-quality, reliable water for people and wildlife;

Restore California's fish, birds, wetlands, rivers, deltas and bays.

Please enter these comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Thank you.

Sincerely,

Frances Martin
